Henry Smith Munroe Papers

A Guide to the Henry Smith Munroe Papers at the Connecticut Historical Society

---

**Collection Overview**

**Repository:** Connecticut Historical Society  
**Creator:** Munroe, Edmund and Henry Smith  
**Title:** Henry Smith Munroe Papers  
**Dates:** 1804 - 1934  
**Extent:** 6.5 linear feet (13 boxes)  
**Abstract:** Collection consists of personal correspondence between Henry Smith Monroe and his family, and correspondence dealing with Munroe's mining and engineering works, as consultant and as a teacher of mining at universities in the United States and Japan. A significant portion of the correspondence, and its supporting documents, relate to lands and land deals in Tennessee. Also included are numerous maps and plans and diagrams of mine workings, surveying statistics and engineering diagrams. Some material touches on Munroe's role as professor of mining at Columbia University.

**Location:** Ms Munrh1933  
**Language:** English

---

**Biographical Chronology**

1850 -- Born in Brooklyn, NY

1869 -- E.M. Columbia University

1870-1871 -- Assistant Geologist, Ohio State Geological Survey

1870-1872 -- Assistant Chemist, United States Department of Agriculture

1872-1875 -- Assistant Geologist and Mining Engineer, Geological Survey of Yesso, Japan
1875-1876 -- Professor of geology and Mining, University of Tokio
1877 -- Ph.D., Columbia University
1877-1891 -- Adjunct Professor of Mining, Columbia University
1891-1915 -- Professor of Mining, Columbia University
1897-1899 -- Dean, Faculty of Applied Sciences, Columbia University
1917 -- Consulting Engineer, United States Bureau of Mines
1933, May 4th -- Died at home in Litchfield, Connecticut

**Scope and Content**

Collection consists of personal correspondence between Henry Smith Munroe and his family, and correspondence dealing with Munroe's mining and engineering works, as consultant and as a teacher of mining at universities in the United States and Japan. A significant portion of the correspondence, and its supporting documents, relate to lands and land deals in Tennessee. Also included are numerous maps and plans and diagrams of mine workings, surveying statistics and engineering diagrams. Some material touches on Munroe's role as professor of mining at Columbia University.

**Arrangement**

Papers are organized into seven series based predominantly on original order and the creator (viz. "collector") of a given series. This is particularly apparent in Series I: Edmund Munroe Correspondence, the latter part of which consists almost exclusively of letters authored and written by Harry Smith Munroe.

**Series I: Edmund Munroe Correspondence** consists of letters to and from Edmund Munroe, Henry Smith's Father, and from members of his immediate family. Much of the correspondence in this series concerns Edmund's dealing with land agents and with land owners in Tennessee, particularly Samuel Barrell of Knoxville, and the Honourable Felix Grundy of Nashville. From ca. 1869 onward the series consists almost solely of letters authored by Harry Smith Munroe, addressed to his parents, and father in particular.

**Series II: Henry Smith Munroe Correspondence** consists mixed personal and business correspondence, arranged chronologically. Much of the earlier correspondence concerns land acquisitions and dealings with lawyers, particularly Charles Seymour, and surveyors in...
Tennessee. Such correspondence and other supporting documents relates closely to that of Edmund Munroe and the Barrell Lands. Later correspondence concerns mining and engineering projects, and his work at the Columbia University as Professor of Mining.

**Series III: Articles, Reports and Essays** consists of written mining and engineering reports, frequently containing technical diagrams and related evidence.

**Series IV: Personal Writings** consists of diaries, notebooks, travel accounts, jottings and rough calculations.

**Series V: Financial Papers** consists of bills and receipts of sale, small account books, indentures and agreements, and insurance papers.

**Series VI: Columbia University** consists of teaching material (notes for lectures), statements of grades, student reports, notebooks on 'academic politics' and material specifically relating to the Summer School of Mining held annually at the School of mines. General interdepartmental memoranda and correspondence, and formal university proclamations may be found in Series 2: Henry Smith Munroe Correspondence under the appropriate year.

**Series VII: Barrell Lands** consists of undated notes and memoranda concerning the Barrell Lands (lands formerly of Samuel Barrell) in Tennessee. Also contains two volumes, one being a survey of those lands by J. W. Davis, the second being minutes of the Trustees of the Barrell Lands for the years 1886-1888. Series II: Henry Smith Munroe Correspondence contains much material relating to transactions and other dealings in regard of these lands, particularly correspondence with land agents and the law office of Charles Seymour of Knoxville. Additional material on the Barrell lands can also be found in Series I: Correspondence of Edmund Munroe.

**Series VIII: St. Lawrence Pyrites Company** consists of monthly and annual general balance sheets of the St. Lawrence Pyrite Company. Other financial breakdowns include some external contracts, and analyses of milling and extracting operations.

**Series IX: Maps, Plans and Engineering Diagrams** consists town maps and builders blueprints, engineering diagrams and other technical drawings and illustrations. Some photographs of mining projects are included in this series. Alongside illustrative material are rough calculations and notes relating to mining works.

**Series X: Memorabilia** consists of invitations, business cards, menus, and tickets.
Series XI: Whitney Estate consists of deeds, agreements and accounts concerning the estates of Sarah Whitney and George Whitney.

Series XII: Felix Grundy Mining Co. consists of two volumes of minutes of the Grundy Mining Company, TN.

Series divisions are based on original order, folders and volumes being arranged chronologically within each series. Series I: Edmund Munroe Correspondence, from ca. 1869 to onward consists principally of letters written by Edmund's son, Harry. These letters have been preserved in this series, rather than moved to Series II: Harry Smith Munroe Correspondence, in the interest of preserving the integrity of the creator of this series, rather than, necessarily, that of the author.

**Restrictions**

**Access Restrictions**

There are no restrictions on access to the collection.

**Use Restrictions**

Use of the material requires compliance with the Connecticut Historical Society’s Research Center regulations.

**Subject Headings**

**Personal Names**

Barrell, Samuel.
Grundy, Felix, 1777-1840.
Munroe, Edmund.

**Subjects**

Explosions.
Mining schools and education Japan Tokyo.
Mining schools and education New York New York.

**Geographic Names**

Yesso (Japan) Surveys.
Henry Smith Munroe papers, 1804-1934

Holographs; holographs, signed; typescripts; typescripts, signed; maps and sketches of mining workings.

14 Letter book kept while at Yesso, Japan June 14 - September 26,
1874
14 Letter book kept while at Yesso and Tokio [Tokyo ]University,
Japan. September 26, 1874 - January 29, 1876

Box Folder
3 8 Correspondence concerning his work at the University of Tokio
[Tokyo], and some letters to his parents; includes a statement of
grades for his students. 1876
3 9 Correspondence, largely from family members, but also
concerning his PhD studies at Columbia University. 1877

Box Folder
4 1 Correspondence; largely personal, to and from his mother and
sister. 1878
4 2 Correspondence; largely personal, to and from his mother and
sister. January - August, 1879
4 3 Correspondence; largely personal, to and from his mother and
sister. Includes some notes on Samuel Barrell, and letters to
Charles Munroe from Charles Seymour, attorney, of Knoxville, TN
concerning the Barrell lands and the formation of a company.
Includes legal deed of sale of ease portions of the land.
September - December, 1879
4 4 Correspondence, largely with and concerning Charles Seymour,
regarding lands in Tennessee. 1880
4 5 Correspondence, largely with and concerning Charles Seymour,
regarding lands in Tennessee. 1881
4 6 Correspondence, largely with and concerning Charles Seymour,
regarding lands in Tennessee. Includes some personal and family
letters. January - May, 1882
4 7 Correspondence and telegrams with bankers and Charles
Seymour concerning land in Tennessee. Letters to his mother
touching on Tennessee land. June - December, 1882
4 8 Correspondence and telegrams with bankers and Charles
Seymour concerning land in Tennessee. January - May, 1883
